

2026 First Quarter Newsletter

Springing Into Our New Space: Our New Home is Almost Ready!

We are thrilled to share that we are in the final stages of construction for our new building and location! It has been an incredible journey watching this vision take shape and we are now focusing on final details - main building entries, completing landscaping and fencing, and preparing parking areas. Meanwhile, interior touch-ups are underway to create a warm, professional space at Wanda K. Thompson

Pregnancy Care Center. We can't wait to show you how your support has helped us build a space dedicated to serving our clients and community with excellence and compassion!

All PCC services are free and confidential. We offer pregnancy and STI testing, ultrasounds, parenting education, fatherhood mentoring, clinical mental health counseling, post abortion support and counseling, financial resources, and community referrals. Our center provides the information and education our clients need to make informed decisions regarding their pregnancy. Please note, we do not perform or refer for abortion.

The support of local partners like you helps equip our staff, volunteers, and clients with the essential tools they need to function effectively. Donations of any of the following supplies empower us to keep financial resources dedicated where they are needed most: on the health and well-being of mothers, fathers, and their babies.
